# PayHours 2.0 gets a powerful add-on with a (mobile) app for both non-driving and driving staff

Are you ready for the future of easy-to-use time tracking and workforce management? PayHours 2.0 will soon make it possible with a brand-new, powerful add-on:

*The PayHours 2.0 App for Android and iOS.*

This app will make life a lot easier for both non-driving and driving staff.
We'd be happy to walk you through the (provisional) features of this groundbreaking app, which is expected to launch in Q2 - 2025.

### Cutting-edge technology at your fingertips

With the PayHours 2.0 App, you benefit straight away from the very latest technological developments. The app integrates seamlessly with the advanced PayHours 2.0 system, ensuring a smooth user experience at all times. Additionally, the app works fully and in real time with PayHours 2.0, so your data is always up to date.

### Time recording has never been easier for non-driving staff

Say goodbye to the old-fashioned clocking machine or terminal - *and say hello to the QR code sticker!* Place it wherever you like. As a non-driving employee, you'll soon be able to record your hours via the integrated EasySecure time recording solution in the PayHours 2.0 App. With just a few taps on your smartphone or tablet, your time entry is done.
*Scan the Start Work QR code to start and scan the Stop Work QR code to stop. That's all.*

### Time recording has never been easier for driving staff

For driving staff too, recording hours will become a breeze. Instead of the hassle of tachograph data, you'll soon be able to track your hours easily via the app.
That leaves you more time for what really matters.

### Requesting and viewing leave becomes child's play

With the PayHours 2.0 App, you always have insight into your leave balance. You can request leave easily and see straight away how much you have left. No more misunderstandings about your remaining holiday entitlement!

### All key information neatly in one place

In the app, you'll soon find all your important details in one clear overview, such as:
- Overview of logged hours;
- Period summaries with raw data;
- Submitting leave requests and viewing leave balances;
- Submitting expense claims and viewing the status of their processing;
- Request for your own master data (and maintaining it);
- Request for documents / file;
- Fines and damage reports;
- Payslips and annual statements.

Everything you need for HR matters - always within reach on your mobile device.

### Ready for the future

With the arrival of the PayHours 2.0 App, we're taking a major step forward in easy-to-use time tracking and workforce management. *Are you ready?*
Keep an eye on developments and prepare for a revolution in ease of use and efficiency.

Q2 of 2025 is the moment!
